

Grant Writing and Scientific Writing Workshop May 2- 4, 2012

The Center for Native and Pacific Health Disparities Research (CNPHDR) and the RCMI Multidisciplinary and Translational Research Infrastructure eXpansion (RMATRIX) of the John A. Burns School of Medicine (JABSOM) are pleased to sponsor a grant writing and manuscript writing workshop on May 2 to 4, 2012. The workshop, organized by Wendy Sanders, M.A., Assistant Dean for Research Career Development at the University of Maryland, is intended to provide a broad overview of these subjects to maximize success in both NIH-type grant applications and in biomedical scientific manuscript submissions.

The sessions are open to anyone interested in the workshop, but will specifically target new emerging investigators and in particular those investigators interested in health disparity research. The grant application process, held on the mornings of May 2 and 3, will provide an overview of grant writing and the grant submission process with a focus on resources available at JABSOM. The manuscript writing workshop, held on the am of May 4, is intended to assist in successful manuscript writing. Participants at the May 4 session on "Writing a Research Article" are encouraged to review the article on the "Science of Science Writing" at <http://www.americanscientist.org/issues/pub/the-science-of-scientific-writing>. There is no cost to attending the workshop, but registration is required.

Ms. Sanders will be available for one-on-one consultation for grant writing in the afternoons on May 2 and 3, and for manuscript writing in the afternoon on May 4. If interested in this aspect, we ask that you indicate this on the registration form. Priority will be given to CNPHDR and RMATRIX emerging investigators.

Tentative Schedule

Grant Writing: Part 1 (May 2, 2012)

- 8:30 – 9:30 Planning a Research Grant Application:
Understanding the Role of the Grants Management Office (30 minutes)
(Ms. Tammy Ho, JABSOM Grants Development Office)
First Steps: Identifying a Funding Source and Mechanism (30 minutes)
- 9:30 – 10:15 Developing a Fundable Research Question
- 10:15 – 10:30 Break
- 10:30 – 11:15 Writing the Specific Aims
- 11:15 – noon The Significance and Innovation Sub-sections

Grant Writing, Part 2 (May 3, 2012)

- 8:30 – 9:30 The Research Approach, including Preliminary Studies
- 9:30 – 10:00 Data Analysis Section of Grant Application (Dr. John Chen, Director JABSOM Biostatistics Core)
- 10:00 – 10:15 Break
- 10:15 – 11:00 Health Disparities (Dr. Marjorie Mau, Director CNPHDR)
- 11 – 11:30 Writing the Abstract and Public Health Relevance Statement (W Sanders)
- 11:30– 12:15 NIH System of Peer Review

Publishing Your Research (May 4, 2012)

- 9:00 – 9:45 Understanding the Publication Process
- 9:45 – 10:15 Data Analysis (Dr John Chen)
- 10:15 – 10:30 Break
- 10:30 – 1130 Writing a Research Article (Introduction, Methods, Results and Discussion)

REGISTRATION FOR Grant and Scientific Writing Workshop
May 2 - 4, 2012
UH- JABSOM Medical Education Building
3rd floor, (room TBA)

Registration/Application Instructions

To register for the Workshop, please complete the form below. Return the completed form to Mona Cardejon at monaann@hawaii.edu by April 27.

I want to register for the Grant Writing Training ONLY on May 2 and 3: ☐

I want to register for the Scientific Writing ONLY on May 4: ☐

I want to register for BOTH Grant and Scientific Writing: ☐

I want to register for one-on-one assistance with grant writing: ☐

I want to register for one-on-one assistance with manuscript writing: ☐

Are you currently working on submitting a grant? If so, what type? (i.e. foundation, K, RO1)

Are you currently working on submitting a scientific paper?

What do you hope to learn from this training?
