

Biotechnology and Nanotechnology

with

Dr. Hiroshi Matsui

Hosted by JABSOM RCMI Programs

RMATRIX-II (U54MD007584) & BRIDGES (G12MD007601)

Dr. Hiroshi Matsui, Professor
Department of Chemistry and
Biochemistry at CUNY – Hunter
College and Weill Medical
College of Cornell University in
New York

Date: Wednesday,
December 16, 2015
Time: 12:00noon – 1:00pm
Location: JABSOM Auditorium
Room # MEB 315

Dr. Matsui will be presenting and discussing his work in Medical Nanotechnology, including Nanoparticle synthesis, nano-mechanical study of cells and exosomes, label-free cancer cell detection & enrichment with electric polysilicon lab-on-a-chip!

Related topics: drug delivery, imaging, CTC, devices, heterogeneity of cancer cells, and exosomes.
